

## Create & Keep Simply Sent box & cards

Supplies needed:

- Dimensionals, Embossing buddy, pearls or rhinestone jewels, Itty Bitty Punch pack, Dazzling Details glitter glue, Tombo multi-purpose glue or Sticky Strip tape

Put your box together using the directions included in the kit. Decorate the front as desired and aside.

Cards 1 & 2

\*\*To remove the 'sticky' on the back of the die-cut adhesive stickers, I wiped the embossing buddy (powder bag) onto them. Now you can use dimensionals to give the cards some added dimension.

### Cards 3 & 4

### Cards 5 & 6

Cards 7 & 8

Cards 9 & 10

\*\*\*I added pearls or rhinestones to some of the flowers or greetings and to others the Dazzling Diamonds glitter glue was the perfect addition.

Now insert your dividers in the box and add your cards in their section. Easy, right? Have fun making yours!
